CTO & SOFTWARE DEVELOPER

SOSTEC Technologies | May 2016 – Jan 2021

- Progressed from Software Developer to CTO, combining hands-on development with technical and business leadership.
- Designed and implemented custom software and database-driven applications.
- Led software development, technical architecture, and technology strategy.
- Improved business workflows through software automation and process optimization.
- Led development teams and worked with clients to deliver scalable IT solutions.
- Contributed to strategic technology planning, company standards, and client solution development.

EDUCATION

BACHELOR OF SCIENCE IN INFORMATION TECHNOLOGY

SIMAD University | 2006 – 2010

PROFESSIONAL DEVELOPMENT

React — Including React Router & Redux

Udemy | 2023

Front-End Developer Track

Udacity | 2018

SKILLS

TECHNICAL

Languages & Frameworks

JavaScript, TypeScript, React, Node.js,
Express.js, PHP, Laravel, SQL

APIs & Integration

REST APIs, API Integration, Authentication &
Authorization, System Integration

Databases

MySQL, Relational Database Design, SQL
Optimization, Database Architecture

Cloud & Tools

AWS, Git, GitHub, Cloud Deployment, Linux

Engineering

Software Architecture, Secure Coding,
Performance Optimization, Testing,
Technical Documentation

PROFESSIONAL

- Effective Communication
- Time-Management
- Adaptability & Flexibility

LANGUAGES

- **Somali:** Native
- **English:** Professional working
proficiency

SOFTWARE PROJECTS

Notary Document Approval & Certification System

Ministry of Justice of Somalia | 2023

Developed a digital platform enabling registered notaries to submit documents and fees online for Ministry review, verification, approval, and certification, with structured workflows, application tracking, and administrative processing.

BARTEK Billing & Service Provisioning Platform | 2026

Developed an integrated platform for domain and hosting purchases, EVC payment integration and verification, and automated cPanel account provisioning.

ERP & Business Management System 2019

Developed an enterprise system supporting clients, quotations, RFQs, bills of quantities, invoices, receipts, expenses, bills, and financial reporting, including income statements and balance sheets.
